PROJECT EXPERIENCE

Real-Time Complaint Hub [Live GitHub](#)

React • Tailwind CSS • Node.js

- Developed a real-time complaint management web application enabling seamless submission, processing, and monitoring of issues.
- Implemented instant state synchronization for status updates and role-based responsive dashboards.

District Score (Hackathon) [Live GitHub](#)

React • TypeScript • Supabase

- Collaborated to build an interactive dashboard visualizing district-level metrics and data.
- Integrated Supabase for backend database management, enabling real-time data flow and responsive state updates.

Chiya Ghar [Live GitHub](#)

React • Tailwind CSS • Framer Motion

- Built a modern, responsive web showcase for a local café featuring rich visual transitions and custom menus.
- Designed smooth UI interactions and animation curves using Framer Motion to elevate user engagement.

Trekking Nepal [Live GitHub](#)

React • Tailwind CSS • Framer Motion

- Created a tourism portal featuring travel catalogs, interactive routes, and responsive grid layouts.
- Optimized asset loading and ensured cross-browser responsive design compatibility.
